Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
- 2. Claims 1, 9, and 10 are rejected under 35 U.S.C. 102(b) as being anticipated by Milnar et al. (6,648,393).

Milnar et al. disclose a seat assembly having a seat cushion (80) pivotally coupled to front legs (90). A support bracket (22) is pivotally coupled to the front leg (90). The support bracket connects to a lateral track assembly (18) such that the seat may be slid laterally. In reference to claim 9, rear legs (20) are pivotally connected to the seat cushion (80). In reference to claim 10, the rear legs (20) have lock hooks (44) that connect the rear legs (20) to the vehicle floor.

Allowable Subject Matter

- 3. Claims 2-8 and 11 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
- 4. Claim 12 is allowed.
